

Some Downey stories (email)

I have written historical articles for our church newsletter for many years. Many of them included references to some of our Downey relatives. I have tried to find all of them as well as a couple of others that you might enjoy. In the list of stories is one about the Old Phillips House. That house mentioned in that story is the same house that was the doctor's office for Dr. C.E. Downey and his associate, Dr. Burke Priddy.

The List family that is mentioned in some of the articles are the Lists who were in partnership with Uncle Ed Downey. Some of the Lists still attend our church. Their permanent home is in Akron, Ohio, but they come down and stay in the old family home about half the year. We granted them dual church membership at their request. The Lists are some really fine people, and we have been associated with them for many, many years.

There are a couple of humorous stories and one about a character of a kid I had in class one time.

You can share these with anyone you wish. They are all in Word format, so they can be converted to PDF.

I hope you enjoy them. I had the distinct privilege of knowing many of these folks first hand, and I feel that my life was enriched because of it.

You all are driving me to set up a Face Book page, you know!

Regards,
Curtis
